

Parents and Students,

Several years ago, St. Louis implemented summer IXL requirements for our students. This summertime practice proved very beneficial to the students' retention of skills. The classroom teachers observed a noticeable increase in the students' performance and our math scores improved every grade.

- This summer, the students will work on IXL Math from May 30th until August 8th. Please do not start on this until May 28. Your work will only count if you follow directions, and do it between May 28 and August 6.
- Students will be required to have 90% mastery on the given list of Third Grade skills listed below. **They are due the first day of school.**
- **This assignment counts as your first Math grade of 4th grade!!**

Students must sign in to our school account to access their personal IXL accounts. The web address is www.ixl.com/signin/saintlouis. Students should use their username and password that they have been using all year.

If your child completes all of the tasks listed on the class sheet he/she should continue with any other skills on the third grade page only. **Please do not go ahead to the 4th grade skills.**

IXL Requirements for rising 4rd Graders:

Addition

C.7, C.9
