

May 27, 2021

Dear Rising Fifth grade students,

I look forward to meeting all of you next year. Math is like playing a sport or an instrument. If you don't practice sports or music you will get rusty. The same thing is true for math. This summer I would like for you to practice your math skills by completing **8 of these FOURTH grade IXL objectives to 80%**.

I recommend spreading it out over the summer instead of doing it all at the beginning or all at the end.

A.6 Place Value Names

A.20 Rounding up to hundred thousands place

C.1 Subtract numbers up to 5 digits

D.3 Multiply 2 digit by 1 digit

D.20 Multiply 1 digit by 3 or 4 digit numbers

E.3 Division facts

E.17 Divide larger numbers by 1 digit divisors

O.7 Identify equivalent fractions

O.11 Write fractions in lowest terms

Have a great summer!

Mrs. Mosteller
