

May 23, 2022

Dear Rising Fifth grade students,

Math is like playing a sport or an instrument. If you don't practice sports or music you will get rusty. The same thing is true for math. This summer I would like for you to practice your math skills by completing **7 of these FOURTH grade IXL objectives to 80%.**

Some of these skills you might have completed already, but you will need to do them again because I will check the date. Do not start until after school is out.

I recommend spreading it out over the summer instead of doing it all at the beginning or all at the end.

A.6 Place Value Names

A.20 Rounding up to hundred thousands place

C.1 Subtract numbers up to 5 digits

D.3 Multiply 2 digit by 1 digit

D.21 Multiply 1 digit by 3 or 4 digit numbers

E.3 Division facts

E.17 Divide larger numbers by 1 digit divisors

O.8 Equivalent fractions: find the missing numerator or denominator

Have a great summer!

Mrs. Mosteller
