## Permission to Walk from School

It is imperative that the school personnel are aware of where each child is to be dismissed to at the end of the school day. It is in the interest of each student's safety that we require this note be sent into the school office each school year. Only students returning this form will be allowed to walk from campus to a home in the neighborhood.

Students may NOT walk to neighboring streets to be picked up.

Students may only walk to their home if it is within a reasonable distance from the school.

We do have the Park and Pick Up option where parents can park, and their child can be waiting at the dining hall entrance.

Please return this form to the school office.
