

# Jr. High Math Summer Work

## 7<sup>th</sup> Grade

### Rising 7<sup>th</sup> Grade:

Complete the following IXL skills at the 7<sup>th</sup> grade learning level:

Sometimes, IXL moves skills around during the summer. Please use the following codes in the search bar to find the correct skills:

- YBC – Understanding integers
- A5Y – Integers on number lines
- EM8 – Graph integers on horizontal and vertical number lines
- 6PJ – Understanding absolute value
- NSB – Absolute value and opposite integers
- 7SP – Quantities that combine to zero: word problems
- JX8 – Compare and order integers
- BTT – Integer inequalities with absolute values
- 27R – Decimal numbers review
- ANM – Compare and order decimals
- R5J – Round decimals

All skills must be completed to 100%.

If you have previously completed a skill, you must complete it AGAIN.

Each IXL skill has a video you can watch if you need a refresher.
