

Jr. High Math Summer Work

8th Grade

Rising 8th Grade:

Complete the following IXL skills at the 8th grade learning level:

Sometimes, IXL moves skills around during the summer. Please use the following codes in the search bar to find the correct skills:

- T2M – Compare and order integers
- YDA – Integer addition and subtraction rules
- 5F7 – Add and subtract integers using counters
- 6UW – Add and subtract integers
- NB7 – Add and subtract three or more integers
- XP7 – Add and subtract integers: word problems
- XLP – Integer multiplication and division rules
- MDA – Multiply and divide integers
- Y6W – Evaluate numerical expressions involving integers
- WD6 – Convert between repeating decimals and fractions
- 2RC – Convert between decimals and fractions or mixed numbers

All skills must be completed to 100%.

If you have previously completed a skill, you must complete it AGAIN.

Each IXL skill has a video you can watch if you need a refresher.
